Protect Yourself from Fraud

Being informed is your best protection against fraud. The tips below can help protect you against fraud while getting health coverage through the Health Insurance Marketplace® at HealthCare.gov:

Keep your device safe

- Make sure your computer, phone, or mobile device has reputable and up-to-date security software. Security software can help protect your computer from viruses. You can find free computer security software from reputable companies. For more information, visit staysafeonline.org/stay-safe-online/freesecurity-check-ups.

- Remove malicious software (sometimes called “malware”). Malware includes viruses and spyware that get installed on your computer, phone, or mobile device without your consent. This type of software can cause your device to crash and criminals can use it to monitor and control your online activity. Criminals use malware to steal personal information, send spam, and commit fraud. To learn more about how to detect and remove malware, visit consumer.ftc.gov/articles/0011-malware.

- Create strong passwords:
  - Use long, unpredictable passwords with a mix of upper and lowercase letters, numbers, and special characters.
  - Create passwords that don't use common words or your personal information, like your name or birthdate.

- Don’t use the same password for multiple accounts, like your Marketplace account and your email or other online accounts.

- Don’t share your passwords with anyone, and keep your passwords in a secure place.

- Trust your instincts. If an email looks suspicious, don’t open it (or any attachments or links.)

- Close your browser and disconnect from the internet when you’re away from your computer, so hackers can’t access your information.

- For more information, read the Federal Trade Commission’s tips on computer security at consumer.ftc.gov/topics/computer-security, or visit consumer.ftc.gov.

Keep your information safe on HealthCare.gov

Protecting your privacy is very important to the Marketplace. To protect your personal identity, we:

- Don’t collect any of your personally identifiable information (PII) unless you choose to give it to us.

- Don’t collect information for commercial marketing or any purpose unrelated to applying for and enrolling in health coverage.

- Require you to verify your identity before creating a Marketplace account and completing an application. We ask questions that only you can answer, based on accounts and personal information in your credit report. This prevents unauthorized people from creating accounts or applying for health coverage in your name without your knowledge.

- May require you to submit documentation to confirm information that you put on your application.

We ask questions that only you can answer, based on accounts and personal information in your credit report. This prevents unauthorized people from creating accounts or applying for health coverage in your name without your knowledge.

- May require you to submit documentation to confirm information that you put on your application.
For more information on how we protect your privacy, read the Marketplace’s full privacy statement at HealthCare.gov/privacy.

In addition to the steps we take to protect your privacy, here are a few tips you can follow to keep your information safe on HealthCare.gov:

- Visit the correct website. When applying for Marketplace coverage, be sure to visit HealthCare.gov. There are many other companies that may try to mislead you and falsely give the impression that they’re associated with the Marketplace or HealthCare.gov. There are also websites that look the same or have a similar web address and use the words “healthcare” and “Marketplace,” but aren’t the official, trusted resource.

- Make sure when you visit HealthCare.gov, the web address reads: https://www.HealthCare.gov and has a padlock image. This means the website is secure.

- Clear your cookies and cache. For more information on how to do this, visit HealthCare.gov/tips-and-troubleshooting/browsers-and-settings.

Be informed

- Visit HealthCare.gov to learn the basics.

- Compare coverage options carefully before picking a health plan.

- Look for official government seals or logos. If you’re getting help from a Marketplace assister, ask to see certifications.

- Know the Marketplace Open Enrollment dates. No one can enroll you after Open Enrollment ends unless you have a qualifying life event or are eligible for a Special Enrollment Period. For more information, visit HealthCare.gov/coverage-outside-open-enrollment.

- Be suspicious of anyone who charges you a fee to enroll in coverage. Marketplace assisters, like Navigators and certified application counselors, shouldn’t ask you for money to help enroll you in a Marketplace plan.

- Remember that if you have Medicare, it’s against the law for someone to sell you a Marketplace plan.

- Learn how to protect yourself from tax scams. For more information, visit HealthCare.gov/how-can-i-protect-myself-from-tax-scams.

Protect your personal information

- If a website doesn't look secure, don't enter any personal information. Only enter your personal information into websites that are encrypted and secure. The standard features that show a website is secure, like HealthCare.gov, are a padlock symbol and an “https” web address.

- No one should ask for your personal health information.

- Keep personal and account numbers private. Don't give your Social Security Number (SSN) or credit card or banking information to companies you didn't contact or in response to advertisements. Note: If you get help from a Marketplace assister, they may need certain personal information, like your SSN, to help you enroll.

- Never give your personal information to someone who comes to your home without your permission, even if they say they’re from the Marketplace.

Ask questions and verify the answers

- The Marketplace has trained assisters in each state to help you for free. Visit LocalHelp.HealthCare.gov, or call the Marketplace Call Center at 1-800-318-2596 to find local help in your area. TTY users can call 1-855-889-4325.

- Ask questions if any information is unclear or confusing.
Write down and keep a record of the name or names of anyone who helps you, who they work for, and their phone number, street address, mailing address, email address, and website.

Don't sign anything you don't fully understand.

**You may get a call from the Marketplace**

After you apply, you may get a phone call from the Marketplace asking you to confirm or provide more information. Visit [HealthCare.gov/how-can-i-protect-myself-from-fraud-in-the-health-insurance-marketplace](http://HealthCare.gov/how-can-i-protect-myself-from-fraud-in-the-health-insurance-marketplace) to learn more.

**Report anything suspicious**

If you suspect fraud, report it by calling:

- The Marketplace Call Center at 1-800-318-2596. TTY users can call 1-855-889-4325.
- Your local, state, or federal law enforcement agencies.
- Your State Department of Insurance.

If you suspect identity theft, or feel like you gave your personal information to someone you don't trust:

- Call your local police department.
- Call the Federal Trade Commission's ID Theft Hotline at 1-877-438-4338. TTY users can call 1-866-653-4261.
- Visit [ftc.gov/idtheft](http://ftc.gov/idtheft) to learn more.
