

Already have Marketplace Coverage? You Should Still Compare Plans Every Year

Marketplace plans can change each year— things like costs and coverage. Even if you're happy with your plan changes for next year, and you don't have any life changes to report (like moving to a new state or changes in your income or household), you should still take a look at the health plans being offered in your area. You might benefit from a change, and you never know until you compare.

To help you decide whether to keep or change your plan, take the quiz below. Give yourself 1 point for each "yes" answer.
