Understanding the Summary of Benefits and Coverage (SBC)

This job aid provides information and guidance that Navigators and certified application counselors (collectively, assisters) need to know in order to interpret the Summary of Benefits and Coverage (SBC) for health plans and assist consumers with using the SBC to compare health plan benefits.

SBC Overview

The Patient Protection and Affordable Care Act (PPACA) implementing section 2715 of the Public Health Service Act (PHS Act) generally requires all group health plans and health insurance companies offering group or individual health insurance to provide applicants, enrollees, and policyholders an SBC that accurately describes the benefits and coverage under the plan to help consumers compare the different features of health benefits and coverage. The specified rules governing SBC requirements are described in section 45 CFR 147.200 of the SBC regulation. The SBC is a consumer shopping tool that provides a snapshot of a health plan’s costs, benefits, covered health care services, limitations and exceptions, and other features that may be important to consumers. The SBC also explains health plans’ unique features, like cost-sharing rules, and includes descriptions of significant limits and exceptions to coverage in easy-to-understand terms. You can find a sample completed SBC at CMS.gov/CCIIO/Resources/Forms-Reports-and-Other-Resources/Downloads/Sample-Completed-SBC-Accessible-Format-01-2020.pdf.

Group health plans and health insurance companies offering group or individual health insurance must also provide a Uniform Glossary to explain common medical and insurance-related terms. You can find the latest Uniform Glossary at CMS.gov/CCIIO/Resources/Forms-Reports-and-Other-Resources/Downloads/Uniform-Glossary-01-2020.pdf.

The sample SBC used below is for illustrative purposes only and is not intended to reflect an actual Marketplace plan option. As consumers compare qualified health plans (QHPs) offered
through the Marketplaces, you can help them understand some of the benefits offered in each plan by guiding them through the SBC.

Assisting Consumers with Locating the SBC

Consumers may access the SBC within each health plan’s detailed view at HealthCare.gov when they preview plans and prices before logging in as well as when they’ve completed their application and are comparing plans. The Plan Details page allows consumers to learn more about a health plan’s benefits before they select and enroll in a plan. Refer to Exhibit 1 for an example of a health plan’s detailed view.

Exhibit 1: HealthCare.gov Plan Details Screenshot

Consumers can also ask for a copy of a plan’s SBC from their insurance company or group health plan any time. All health plans must provide the SBC at important points in the enrollment process.
process, like when a consumer applies for or renews their policy. The consumer may be able to get the SBC and Uniform Glossary in a language other than English upon request. They can search for a statement on the SBC in their preferred language to check if it’s available. It will include a phone number they can call to request the translated version from their insurance company.

They can also ask for a copy of the Uniform Glossary to help them understand words used in health coverage and medical care. The Uniform Glossary is also available upon request and through the CMS SBC website in English, Chinese, Navajo, Spanish, and Tagalog.

Assisting Consumers with Reviewing the SBC

Assistors should help consumers understand that all SBCs contain the following basic parts:

- **Important Questions:** Consumers can use this section to understand some of the health plan’s costs, including deductible amounts and out-of-pocket limits. This section also contains information on coverage for in-network and out-of-network providers.

- **Common Medical Events:** This section provides cost-sharing information, such as copayments and coinsurance amounts, and significant limitations or exclusions for certain common medical events, including a visit to a provider’s office, an MRI or CT scan, a hospital stay, and prescription drug information.

- **Excluded Services and Other Covered Services:** Consumers can use this section to learn about certain services that are not covered by their health plan as well as some additional services the plan does cover.

- **Coverage Examples:** Consumers can use this section to see what the plan would cover in three common medical situations: a simple fracture, diabetes care, and having a baby. These standardized, hypothetical coverage examples help facilitate apples-to-apples comparisons between plans and to get an idea of how much financial protection the plan is generally expected to provide for common health conditions. Consumers should not use these coverage examples to estimate their actual costs under a plan because actual services and costs depend on consumers’ individual medical needs when they consult with a provider.

- **Uniform Glossary:** Each SBC contains a link to a glossary with consumer-friendly explanations of common medical and insurance terms such as “deductibles” and “premiums.” All health insurance issuers use the same glossary. You can find the Uniform Glossary online at CMS.gov/CCIIO/Resources/Forms-Reports-and-Other-Resources/Downloads/Uniform-Glossary-01-2020.pdf.

- **Disclosures:** Consumers can use this section to find out about continuing coverage, grievance and appeals rights, if the plan provides minimum essential coverage, if it meets minimum value standards, and available language access services.
Minimum essential coverage (MEC) generally includes group health plans, health insurance available through the Marketplace or other individual market policies, Medicare, Medicaid, the Children’s Health Insurance Program (CHIP), TRICARE, and certain other coverage. A consumer may not qualify for premium tax credits and cost-sharing reductions to buy a plan from the Marketplace if they are eligible for other MEC. This includes if they can enroll in an employer plan that is considered affordable and that provides minimum value or if they do enroll in an employer plan that offers minimum value. A plan offers minimum value if the percentage of the total allowed costs of benefits provided under the plan is at least 60 percent, and the benefits under the plan include substantial coverage of inpatient hospital services and physician services.

You should remind consumers that they can use the SBC to answer their general questions about a health plan before selecting and enrolling in a plan. Consumers can contact the insurance company offering a plan for information about how it can help them pay for specific health services, and they should review the insurance policy closely. You should also remind consumers that their benefits and coverage under a health plan may change during the benefit year or when a new benefit year begins, which is very common.

If information on a plan’s SBC changes in the middle of a benefit year and that change is one that most consumers would consider important in their decision-making on which plan to choose, the health insurance company offering that plan must notify consumers of any changes at least 60 days before they go into effect. Before a new benefit year begins, consumers should expect a new SBC to be available from their health insurance company that reflects any changes to their plan that will be in effect during the new benefit year.

Scenario: Assisting a Consumer with Choosing a Health Plan Using the SBC

Ella is 28 years old and wants to enroll in a health plan for herself and her husband for the first time. Ella has chronic back pain, and her husband suffers from asthma. You help Ella submit a Marketplace application, and she is determined eligible to purchase a QHP through the Marketplace. She has identified a QHP that she believes will provide good coverage for her and her husband’s conditions. However, Ella might need back surgery this year and is concerned about the plan’s prescription drug costs and any costs she may be responsible for if she visits a specialist outside the plan’s network. Ella asks you the following questions, and you answer her questions by helping her to review the SBC to learn more about this plan.

1. *My last doctor said I might need to have in-patient back surgery in the next year. Do I need to get a referral to see a back specialist?*
Direct Ella to the Important Questions chart on the SBC. The last important question and answer on this chart indicates whether Ella would need a referral before she visits a specialist. A sample Important Questions chart is displayed below in Exhibit 2.

Exhibit 2: Sample Important Questions Chart

### Important Questions

<table>
<thead>
<tr>
<th>What is the overall deductible?</th>
<th>$500 / individual or $1,000 / family</th>
</tr>
</thead>
<tbody>
<tr>
<td>Are there services covered before you meet your deductible?</td>
<td>Yes</td>
</tr>
<tr>
<td>Are there other deductibles for specific services?</td>
<td>No</td>
</tr>
<tr>
<td>What is the out-of-pocket limit for this plan?</td>
<td>For network providers $2,500 individual / $5,000 family; for out-of-network providers $4,000 individual / $8,000 family</td>
</tr>
<tr>
<td>What is not included in the out-of-pocket limit?</td>
<td>Copayments for certain services, premiums, balance-billing charges, and health care this plan doesn’t cover.</td>
</tr>
<tr>
<td>Will you pay less if you use a network provider?</td>
<td>Yes</td>
</tr>
<tr>
<td>Do you need a referral to see a specialist?</td>
<td>Yes</td>
</tr>
</tbody>
</table>

### Why This Matters:

- Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible. Until the total amount of deductible expenses paid by all family members meets the overall family deductible.
- This plan covers some items and services even if you haven’t yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost sharing and before you meet your deductible. See a list of covered preventive services at [insert link].
- You must pay all of the costs for those services up to the specific deductible amount before this plan begins to pay for those services.
- The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
- Even though you pay these expenses, they don’t count toward the out-of-pocket limit.

2. **If I do need surgery, how much will it cost me to have the surgery on this plan?**

You should inform Ella that the SBC cannot tell her the exact costs she will pay for a complicated episode of care like back surgery. Her actual services and costs would depend on her particular medical needs as determined in consultation with her provider. However, you can show Ella two sections of the SBC that will help her understand potential cost-sharing amounts for services she will receive if she gets back surgery.

First, direct Ella to the Important Questions chart of the SBC shown in Exhibit 2 above. Explain that Ella must meet the deductible amount in the first row before the insurance
company would begin to pay for most covered services. In this example, the plan has a $500 per-person or $1,000 per-family overall deductible and a $300 specific deductible for prescription drug coverage, as shown in the third row.

Next, direct Ella to the Common Medical Events chart shown in Exhibit 3 below. This chart shows the potential cost-sharing amounts Ella might be responsible for if she receives various health care services after meeting the plan’s deductible(s). For example, an office visit with a specialist in the plan’s network has a $50 copayment per visit, which means Ella would need to pay $50 each time she visits an in-network specialist. If Ella went to an out-of-network provider, she would have to pay 40 percent coinsurance, or 40 percent of the allowed amount for the visit. For example, if the plan’s allowed amount for an out-of-network specialist visit is $200, her coinsurance payment of 40 percent would be $80. This amount assumes that she has met her deductible. In addition, if the out-of-network specialist’s charge is more than the plan’s allowed amount, the provider may charge her for the difference between the provider’s charge and the plan’s allowed amount (sometimes called “balance billing”). For example, if the specialist’s charge was $250 in the example above, Ella could have to pay $50 ($250 specialist charge minus $200 plan allowed amount) plus the $80 coinsurance for a total cost of $130. This is why it is often beneficial for enrollees to look for in-network providers, where out-of-pocket costs are typically lower.

Then, direct Ella to the “If you have a test” row of the Common Medical Events chart to determine the potential cost sharing for having an imaging test performed, like an MRI or CT/PET scan. Ella can find other services she may need in the Common Medical Events chart as well, including “If you have outpatient surgery” and “If you have a hospital stay.” Either of these rows may apply, depending on whether her surgery would be performed in an outpatient or inpatient setting.
Exhibit 3: Sample Common Medical Events Chart

> All copayment and coinsurance costs shown in this chart are after your deductible has been met, if a deductible applies.

<table>
<thead>
<tr>
<th>Common Medical Event</th>
<th>Services You May Need</th>
<th>What You Will Pay</th>
<th>Limitations, Exceptions, &amp; Other Important Information</th>
</tr>
</thead>
<tbody>
<tr>
<td><em>If you visit a health care provider’s office or clinic</em></td>
<td>Primary care visit to treat an injury or illness</td>
<td>Network Provider (You will pay the least) $35 copay/office visit and 20% coinsurance for other outpatient services; deductible does not apply</td>
<td>Out-of-Network Provider (You will pay the most) 40% coinsurance</td>
</tr>
<tr>
<td></td>
<td>Specialist visit</td>
<td>$50 copay/visit</td>
<td>40% coinsurance</td>
</tr>
<tr>
<td></td>
<td>Preventive care/screening/immunization</td>
<td>No charge</td>
<td>40% coinsurance</td>
</tr>
<tr>
<td><em>If you have a test</em></td>
<td>Diagnostic test (x-ray, blood work)</td>
<td>$10 copay/test</td>
<td>40% coinsurance</td>
</tr>
<tr>
<td></td>
<td>Imaging (CT/PET scans, MRIs)</td>
<td>$50 copay/test</td>
<td>40% coinsurance</td>
</tr>
<tr>
<td><em>If you need drugs to treat your illness or condition</em></td>
<td>Generic drugs (Tier 1)</td>
<td>$10 copay/prescription (retail &amp; mail order)</td>
<td>40% coinsurance</td>
</tr>
<tr>
<td></td>
<td>Preferred brand drugs (Tier 2)</td>
<td>$30 copay/prescription (retail &amp; mail order)</td>
<td>40% coinsurance</td>
</tr>
<tr>
<td></td>
<td>Non-preferred brand drugs (Tier 3)</td>
<td>40% coinsurance</td>
<td>60% coinsurance</td>
</tr>
<tr>
<td></td>
<td>Specialty drugs (Tier 4)</td>
<td>50% coinsurance</td>
<td>70% coinsurance</td>
</tr>
<tr>
<td><em>If you have outpatient surgery</em></td>
<td>Facility fee (e.g., ambulatory surgery center)</td>
<td>$100/day copay</td>
<td>40% coinsurance</td>
</tr>
<tr>
<td></td>
<td>Physician/surgeon fees</td>
<td>20% coinsurance</td>
<td>40% coinsurance</td>

<tr>
<td><em>If you need immediate medical attention</em></td>
<td>Emergency room care</td>
<td>20% coinsurance</td>
<td>20% coinsurance</td>
</tr>
<tr>
<td></td>
<td>Emergency medical transportation</td>
<td>20% coinsurance</td>
<td>20% coinsurance</td>
</tr>
<tr>
<td></td>
<td>Urgent care</td>
<td>$30 copay/visit</td>
<td>40% coinsurance</td>
</tr>
<tr>
<td><em>If you have a hospital stay</em></td>
<td>Facility fee (e.g., hospital room)</td>
<td>20% coinsurance</td>
<td>40% coinsurance</td>
</tr>
</tbody>
</table>

For the most accurate information about specific services Ella is interested in, she can use the contact information at the top of the SBC to contact the plan’s issuer and request a copy of the actual plan or policy document. Refer to Exhibit 4 below.
3. **All these services and costs seem to be adding up quickly! Does this plan offer any protections for me if I have to pay a lot of out-of-pocket costs in one coverage year?**

To answer this question, direct Ella to return to page 1 of the SBC (shown in Exhibit 2) and find the row for “What is the out-of-pocket limit for this plan?” The out-of-pocket limit, as explained in the Uniform Glossary, is the most Ella could pay in cost sharing during a policy period (for individual market coverage, this is usually one calendar year or part of a calendar year ending December 31) before her health insurance company begins to pay 100 percent of the allowed amount for covered services. In this example, if Ella spends over $2,500 for services from in-network providers, the health insurance company will begin to pay 100 percent of the allowed amount for covered services. The out-of-pocket limit never includes premiums, **balance-billed charges**, or health care the health insurance company doesn’t cover. Additionally, some health insurance companies don’t count all copayments, deductibles, coinsurance payments, out-of-network payments, or other expenses toward this limit.

4. **Thanks! Now that I know how to interpret the cost-sharing features of a plan using the SBC, maybe I should look at another SBC to see how this plan matches up to another plan I was considering earlier.**

Tell Ella that using the SBC to make apples-to-apples comparisons easier is exactly one of the main purposes of the SBC. If she doesn’t have ready access to the other SBC, she can always request it from the insurance company, which must send it within seven business days.
