Update to FFM Functionality for Immigrants with Income Under 100% FPL

Helping certain immigrant consumers under 100% FPL be determined eligible for APTC/CSRs

December 2015
Agenda

• Updated FFM Functionality
• Background
• Immigration Statuses Eligible for Marketplace Coverage
• Tips for Preventing Immigration/Citizenship Data Matching Issues
• Process Overview of Updated FFM Functionality
• Special Enrollment Period
• What Assisters Should Know: How to Help
• Other Resources
NEW: Updated FFM Functionality

- **What:** More quickly and seamlessly determine whether certain immigrant applicants are eligible for advance payments of the premium tax credit (APTC) and cost-sharing reductions (CSRs)
- **Who/Target population:** Consumers
  - with income under 100% FPL
  - with an immigration status data matching issue (DMI)
    - A data matching issue happens when information a consumer enters in their Marketplace application doesn't match the data the Marketplace checks against in trusted resources, like the Department of Homeland Security.
    - who are otherwise not eligible for Medicaid or the Children’s Health Insurance Program (CHIP) based on their income or other factors.
- **How:** Automates an existing, multiple-step, manual process.
- **When:** Updated functionality released in Fall 2015.
1. **Immigrant eligibility requirements for Marketplace vs. Medicaid**
   - Eligibility for Marketplace coverage through a Qualified Health Plan (QHP) = Lawfully present
   - Eligibility for Medicaid = Immigrants who are “qualified non-citizens” and have met the five-year waiting period* are generally eligible for coverage through Medicaid and CHIP if they meet their state’s income and residency rules.
     - Generally, stricter requirement; overall fewer immigration statuses are considered Medicaid-eligible than eligible for Marketplace Coverage
     - In addition, 29 states, DC & the Commonwealth of the Northern Mariana Islands (CNMI) also cover “lawfully present” children and pregnant women, without a 5 year waiting period.
     - All “qualified non-citizens” are also lawfully present
     - See slides 7-8 for a list of statuses

*Some qualified non-citizens are exempt from this rule*
2. **Marketplace Savings (APTC and CSR eligibility)**

   - **Generally:** Consumers must have annual household income between 100% and 400% of the Federal Poverty Level (FPL) in order to be eligible for APTC.

   - **Exception:** Immigrants who are lawfully present but have an immigration status that is not eligible for Medicaid based on immigration status may be eligible for APTC and CSRs even if their annual household income is under 100% FPL.
3. The Federally-facilitated Marketplace (FFM) must verify that an applicant is not eligible for Medicaid based on their immigration status before awarding APTC/CSRs when the applicant’s annual household income is under 100% FPL (and they are otherwise not eligible for Medicaid or CHIP based on income or other factors).

- In a majority of cases, the FFM is able to verify a consumer’s immigration status electronically when the applicant completes an application (i.e. in real time) through the Department of Homeland Security (DHS) and determine that the consumer is lawfully present and is not eligible for Medicaid based on their immigration status.
- When immigration status cannot be verified in real time, an immigration status DMI occurs and the FFM asks the consumers to provide proof of their status to help the FFM verify if the consumer is eligible for APTC/CSRs.
Immigration Statuses Eligible for Marketplace Coverage

**Lawfully Present statuses eligible for enrollment in a QHP through the Marketplace**

- Individual with valid nonimmigrant status (includes worker visas (such as H1, H-2A, H-2B), student visas, U-visa, T-visa, and other visas, and citizens of Micronesia, the Marshall Islands, and Palau)
- Aliens whose visa petitions have been approved and who have a pending application for adjustment of status
- Individuals granted employment authorization
- Temporary Protected Status (TPS)
- Paroled into the U.S.
- Deferred Action Status (Exception: Deferred Action for Childhood Arrivals (DACA) under June 2012 DHS policy are not considered lawfully present)
- Deferred Enforced Departure (DED)
- A child who has a pending application for Special Immigrant Juvenile status
- Granted relief under the Convention Against Torture (CAT)
- Lawful Temporary Resident
- Family Unity beneficiaries
- All of the Medicaid eligible statuses listed on the next slide

For more lawfully present immigration statuses, visit: [www.healthcare.gov/immigrants/immigration-status/](http://www.healthcare.gov/immigrants/immigration-status/)

*Children and/or Pregnant women with listed statuses may be eligible for Medicaid or CHIP in certain states. For more information, visit: [www.medicaid.gov/medicaid-chip-program-information/by-topics/outreach-and-enrollment/lawfully-residing.html](http://www.medicaid.gov/medicaid-chip-program-information/by-topics/outreach-and-enrollment/lawfully-residing.html)

* Indicates lawfully present immigration statuses that are considered qualified non-citizen statuses for purposes of Medicaid eligibility and that are NOT subject to the Medicaid 5-year bar
** Indicates lawfully present immigration statuses that are considered qualified non-citizen statuses for purposes of Medicaid eligibility and that are NOT subject to the Medicaid 5-year bar

This chart represents a summary of complex Federal statutes relating to immigration status. As a summary, it does not include all relevant detail. This publication is not a legal document and does not grant rights or impose obligations. It is not intended to take the place of either the written law or regulations.
Tips for Preventing Immigration/Citizenship Data Matching Issues

• **Complete the whole application:** While some fields of the application are labeled as optional, we highly recommend that consumers fill out as many of the fields as possible.

• **Encourage applicants to select an appropriate immigration document type, and provide all documents numbers and ID numbers,** if applicable (e.g., Alien Number or “A # (sometimes also called the USCIS number) or I-94 number).
  – **Assister Tip:** Reassure consumers that immigration information will ONLY be used for the Marketplace and insurance affordability programs and will not be used for immigration enforcement purposes.
  – **Assister Tip:** Remind consumers that if they are not applying for health coverage for themselves, they do not need to provide their citizenship or immigration status.

• **If a consumer’s name used for the Marketplace application differs from how it appears on their immigration document or other documents (such as social security card), advise the applicants to provide their name as written on those documents.**
• Non-applicants are strongly encouraged to provide a Social Security Number (SSN) if they have one, but it is not required, unless the non-applicant: is the tax filer in an applicant’s household, has a spouse or dependent applying for APTC or CSRs, and has filed a federal tax return in the previous year.
  – **Note:** People who apply for health coverage need to provide an SSN if they have one.

• **Double check that the information on the application is complete and that there are no errors or typos.**
  – Consumers should confirm that name, birth date, and SSN, are correct and complete for all applicants.
Tips for Preventing Immigration/Citizenship Data Matching Issues (cont’d)

- **Popups if SSN or Immigration Information is left blank**
  
  **Are you sure?**
  
  It’s important to enter the Social Security Numbers (SSNs) for everyone on your application, if they have them. Entering SSNs makes the application process go smoother and faster by allowing the Marketplace to check your information automatically. If you don’t enter SSNs for people who have them, you may need to provide more information later.

  - **CONTINUE WITHOUT SSN**
  - **BACK**

- **Orange reminder to re-enter SSN if data matching issue is still present**
  
  **4’s information**
  
  We haven’t verified this Social Security number yet. You can re-enter it now to make sure it’s accurate. It must match the Social Security card information. Don’t copy or paste it.

  - **Enter Social Security number**

  ```
  XXX-XX-XXXX
  ```
Tip: When providing document types, a question will appear asking the consumer if the name he or she provided on the application matches what appears on his or her immigration documents. If the name matches exactly, the consumer should select “Yes,” and if not, he or she should answer “No” and enter his or her name as it appears on his or her documents, as pictured in the screenshot below.
Process Overview of Updated FFM Functionality

1. Marketplace identifies targeted consumers
2. Marketplace notifies consumers of immigration status data matching issue (DMI) and potential eligibility for APTC
3. Consumers should respond by providing documents to verify immigration status and resolve DMI within 95 days
4. Marketplace uses documentation to verify immigration status and notifies consumer of eligibility outcome
5. a) If applicant is lawfully present but not eligible for Medicaid based on immigration status → applicant is eligible for APTC/CSRs and SEP
5. b) If applicant is lawfully present AND eligible for Medicaid based on immigration status → Applicant is eligible for a QHP without APTC/CSRs
1. **Targeted immigrant consumers are flagged**
   - The system identifies consumers who:
     - have annual household income under 100% FPL,
     - have an immigration status DMI, and
     - are otherwise not eligible for Medicaid based on income or other factors.
   - Impacted consumers will receive an eligibility notice when they apply for Marketplace coverage (see next slide).
2. New language in the eligibility notice encourages consumers to send immigration documents so they can be evaluated for APTC

- Consumers have 95-days to provide documentation, but they do not receive APTC or CSR during that period.
3. Consumers should respond to the notice by uploading or mailing in documents to the Marketplace to resolve their immigration status DMI.

- This allows the Marketplace to verify the applicant’s immigration status.
- Consumers can upload requested documents through their account on HealthCare.gov or mail in copies of documents.
  - **Assister Tip:** Uploading documents is the fastest way to submit your documents to the Marketplace.
- See the list of acceptable documents for resolving each type of data matching issue here: [https://www.healthcare.gov/help/how-do-i-resolve-an-inconsistency/](https://www.healthcare.gov/help/how-do-i-resolve-an-inconsistency/)
  - **Assister Tip:** Remember there are different documents to submit for immigration status, income, citizenship, and other DMIs.
• My Account page now highlights if a consumer has a DMI
• An applicant with a DMI will see language in red that says “temporary eligibility.”
4. **Marketplace verifies immigration status and notifies consumer**
   
   • Marketplace verifies whether consumer’s immigration status meets Marketplace and/or Medicaid eligibility requirements using immigration documentation.
   
   • Marketplace notifies consumer of final eligibility determination via mail or email based on the consumer’s communication preferences.

   – **Assister Tip:** Consumers should be sure that their communication preference they listed is the way they want to be contacted is method of communication they check the most often.
5. a) If applicant is lawfully present but not eligible for Medicaid based on immigration status:

- Applicant is eligible for APTC
- Applicant is eligible for a Special Enrollment Period (SEP) to enroll in Marketplace coverage or change Marketplace plans if needed outside Open Enrollment Period.
- SEP is accessible through HealthCare.gov and the Marketplace Call Center at 1-800-318-2596
- Once granted an SEP, eligible consumers should continue directly to plan compare to enroll in a plan or apply financial assistance to the cost of their current plan; no need to update the application or answer additional application questions
- SEPs are available 60 days from date on eligibility determination notice that notifies consumer of SEP
5. b) If applicant is lawfully present AND has an immigration status that meets requirements for Medicaid eligibility

• Applicant is eligible for a QHP through the Marketplace without APTC/CSRs
• Eligibility remains the same
• Notice language:

You’re getting this notice because you recently submitted one or more documents that we requested in your eligibility notice. We received your immigration documents, and we’ve verified your information.

Your eligibility as described in your eligibility notice will continue unchanged:

• You’re eligible for coverage through the Marketplace.
• You’re not eligible for financial assistance through the Marketplace because your household’s annual income is too low for this financial assistance and your immigration status does not qualify you for an exception to the income rules for this financial assistance.
• You’re not eligible for Medicaid or the Children’s Health Insurance Program (CHIP).
What Assisters Should Know - How to Help

• New functionality affects a narrow population of consumers who meet all of the following conditions:
  – Immigrant consumer with an eligible immigration status,
  – Immigration status DMI,
  – Annual household income below 100% FPL,
  – Not eligible for Medicaid based on income and other factors, and
  – Eligible for Marketplace coverage.

• Consumers impacted by functionality may contact assisters:
  – For help understanding notices
  – For help determining correct documentation to submit to resolve a data matching issue
  – For help enrolling in Marketplace coverage with or without APTC/CSRs
  – For help filing an appeal
What Stays the Same

- Answering application questions after being denied Medicaid or CHIP eligibility (see right) will still help HealthCare.gov properly determine eligibility for low-income, immigrant applicants, including those with income under 100% FPL who were denied Medicaid or CHIP due to immigration status.

- Consumers with an immigration status DMI will continue to be sent to their Medicaid/CHIP agency if they appear eligible for Medicaid or CHIP coverage based on income or other factors.
  - If these consumers are later denied eligibility for Medicaid or CHIP based on immigration status, they can come back to receive APTC and CSRs by attesting to the “Medicaid block” question.
