KEY MESSAGES

- **VA wants all Veterans to receive health care that improves their health and well-being.**
 - VA will assist Veterans and other beneficiaries to determine their eligibility for VA health care and other health coverage options.
- **If enrolled in VA health care, a Veteran does not need to take additional steps to meet the health care law coverage standards.**
 - The health care law does not change VA health benefits or Veterans' out-of-pocket costs.
- **Veterans and other beneficiaries not currently enrolled in VA health care may apply for enrollment with VA at any time.**
 - Applications are accepted online at www.va.gov/healthbenefits/enroll, by phone at 877-222-VETS, by mail, or in person at a VA medical facility.
- **VA will continue to provide Veterans with the high quality, comprehensive health care and benefits they earned through their service.**
- **Veterans' family members and Veterans not eligible for VA care may secure coverage through the Marketplace or through employer sponsored coverage, if applicable.**

VA HEALTH CARE PROGRAMS

- The Department of Veterans Affairs (VA) provides comprehensive health care programs, services, and benefits to Veterans and other beneficiaries who are enrolled in the following programs:
- **Veterans Health Care Program**
 - Veterans may apply for enrollment in the Veterans health care program at any time. There are no enrollment fees, premiums, or cost shares. Some Veterans may have copays for care or medications.
- **Civilian Health and Medical Program of the Department of Veterans Affairs (CHAMPVA)**
 - CHAMPVA is a comprehensive health care program for spouses, surviving spouses, children and certain primary caregivers of qualifying Veterans in which the VA shares the cost of covered health care services and supplies.
- **Spina Bifida Health Care Benefits Program**
 - VA provides monetary allowances, vocational training and rehabilitation and VA-financed health care benefits to certain Korea and Vietnam Veterans' birth children who have been diagnosed with Spina Bifida.

BENEFITS OF VA HEALTH CARE PROGRAM FOR VETERANS

- Medical care rated among the best in the United States.
- Comprehensive Medical Benefits Package for all enrolled Veterans.
- Veterans may apply for VA health care enrollment at any time.
- Continuous enrollment – unless Veteran elects to un-enroll.
- No enrollment fee, monthly premiums, or deductibles.
- Low or no out-of-pocket costs. Some Veterans may have to pay small copayments for health care or prescription drugs.

INFORMATION FOR FAMILY MEMBERS OF VETERANS

- In most cases, family members cannot enroll in VA health care programs. Family members who are not enrolled in programs such as CHAMPVA or Spina Bifida, should use the Marketplace to get coverage or obtain coverage through employer, if applicable.
- Family members may get lower costs on monthly premiums or out-of-pocket costs.
- Family members may be eligible for free or low-cost coverage through Medicaid or the Children's Health Insurance Program (CHIP).

ACA IMPLICATIONS FOR VETERANS

- If a Veteran is enrolled in VA health care, he/she does not need to do anything else to meet the standards of the law.
- If a Veteran has other forms of health care coverage, such as a private insurance plan, Medicare, Medicaid, or TRICARE, he/she can continue using VA along with those other plans.
- If a Veteran or eligible family member is enrolled in a VA health care program, he/she is **not** eligible for the premium tax credit when purchasing insurance through the marketplace.

HOW TO CANCEL ENROLLMENT IN VETERANS HEALTH CARE

- If a Veteran chooses to cancel their VA health care enrollment, he/she may reapply at anytime, but the re-enrollment decision will be based on VA eligibility rules at the time of reapplication. That means they may not be able to re-enroll.
- Cancelling enrollment means the Veteran will not have health care coverage through VA. If the Veteran does not have other health insurance, he/she will not meet the standards of the health care law.
- If a Veteran chooses to cancel his/her enrollment, he/she may seek enrollment in the marketplace and may qualify for the premium tax credit.
- If a Veteran wants to cancel their VA health care enrollment, he/she must do so in writing. Signed and dated requests should be mailed to:
Health Eligibility Center
2957 Clairmont Road NE
Atlanta, GA 30329-1647

What is the Affordable Care Act?

The Affordable Care Act, also known as the health care law, was created to expand access to coverage, control health care costs and improve health care quality and care coordination. **The health care law does not change VA health benefits or Veterans' out-of-pocket costs.**

What you should know:

VA wants all Veterans to receive health care that improves their health and well-being.

SCENARIO #1

LaDonna is married and has one child. When she was in the Air Force, she and her family were enrolled in TRICARE, but she was discharged after 6 years and is looking for a job. Her husband stays home to care for their child, so they do not have another source of health insurance. LaDonna applies for VA health care and qualifies for enrollment. Her husband and child do not qualify for VA health care but are able to purchase health insurance through the Health Insurance Marketplace.

SCENARIO #2

Terrell is a 67-year old Vietnam Veteran. When he got out of the Army, he did not enroll in VA health care. He had health insurance through his employer until he retired at the age of 65. Now he is enrolled in Medicare, so he meets the standards for health care coverage under the health care law. The pain from Terrell's service-related injuries has gotten worse, and he thinks VA would be the best place to seek care for those conditions at no cost. Terrell can use VA for any other health care needs, but his Medicare coverage means he can also receive care at the private health care facility he has been using for the past several years.

SCENARIO #3

Mei retired from the Army with 25 years of service. She is enrolled in TRICARE and in VA health care. Both plans meet the requirements of ACA to have health insurance, and Mei can remain enrolled in both plans. As she has always done, Mei makes sure her providers at VA and at TRICARE are aware that she is receiving care in both places so her care can be coordinated.

SCENARIO #4

Dion enrolled in VA health care more than 10 years ago. When he first enrolled, he lived close to the Durham, North Carolina, VA Medical Center and went there regularly for his care. He later moved to another part of the country where the nearest VA medical facility is 75 miles from his house. He has other health insurance through his employer, so he gets his medical care from a local doctor. He is still enrolled in VA because it doesn't cost him anything. Dion's employer-based health insurance coverage is very expensive. He learned that he would qualify for assistance with premiums if he purchased health insurance through the Marketplace, but only if he is not enrolled in a government-sponsored health plan. Dion decides to cancel that assistance. He notifies VA of his decision in writing and uses the Marketplace to enroll in private insurance.
